CARING FOR YOUR ITEM

---

With proper care, your fine quilt or pillow cover will last for generations as a true heirloom. Each quilt is made of 100% cotton, which will get softer with use (pillow covers include nylon zippers). Each piece is colored with non-toxic, water-based pigments. Although these have been fixed to make them colorfast, slight fading may occur with time and exposure to direct sunlight.

Quilts and pillow covers may be machine washed on the delicate setting with gentle detergent and cold water. Avoid detergents containing optical brighteners, and do not bleach. Tumble dry on low heat, removing while still slightly damp. Steam or iron if necessary. Dry cleaning is not recommended.

Do not machine wash pillow inserts.
